Source: DfE Labour market and skills projections 2020 to 2035. Inc replacing retired workers

Geography: North East LEP area

“

“I enjoy studying film because I've learnt a range of new skills from different projects, such as researching suspense, Christmas films, documentaries and music videos etc. We learn how to do all the different types of pre-production. It's fun to watch a film develop from a script to it being edited, and it's good to be able to try out different roles such as camera operator or director. The course has lots of different opportunities and I love being able to work with other teams within our APTA department such as Creative Makeup and Acting for Stage and Screen.”

Holly,
Film and TV Production
