## Labour Market Info

Social workers and care assistants and nurses were several of the occupations that appeared most regularly in monthly snapshots of online North East job adverts during 2022.

**Source:** ONS Labour demand volumes by profession and local authority 2017 to 2022.

**Geography:** North East LEP area.

“

“It’s great learning about all the different sides of health and social care. We get to learn a wide variety of skills that prepare us for full-time work or higher education. I’m looking forward to a career in paramedic science once I’ve completed my education.”
